

TEACHING KIDS TO CLEAN: ADVENTURES IN VACUUMING

- Pick up all small items off the floor & put them away.
(If you find any coins, they are yours to keep!)

- Set the vacuum for carpet type or floor.

- Vacuum from one side of the room to the other
& then vacuum the opposite way --
North to South then East to West.

Tip: Hold the cord & never run over it!

Super!

- Move any large items (like hampers or desk chairs),
vacuum the area & then put them back.

- Please don't run into the furniture --
if you need to get close, use the cool vac tools!

COOL

Tip: Switch dial on vacuum to Tools setting

- Once you're done, put the cord & tools
back in the correct place.

- Grab a book or toy and enjoy your clean floor!

*GREAT
JOB!*
